

10/04/2025

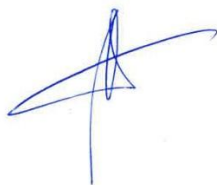

Dear Swen ,

The meeting with the Mayor and the Director of Urban Planning of the Marratxi Town Hall was very positive, as they found the Wellness Clinique Project very interesting, creating synergies for the region as a whole.

They also mentioned that the Building Permit usually takes as little as 8/9 months, which is very positive.

From our Civil Engineering Company Taller de Proyectos (tpe.es), we consider the Wellness Clinique Project innovative for Mallorca and even Ibiza and the Balearic Islands in general, as it has no competition and is in high demand from both Spanish and foreign high-level clients who are year-round residents, as well as all foreign clients who want a wellness stay in a High-Level Clinic with the great advantage of the good temperatures that we enjoy all year round in Mallorca.

We send you our cordial greetings from Mallorca.

Mylène López-Baviera Pouthier
